

## 2- Roles

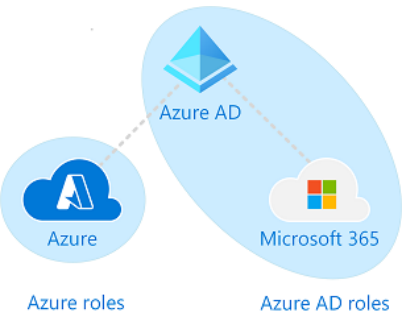

### All roles

#### 3- All roles

## Differences between Azure roles and Microsoft Entra roles

Azure roles	Microsoft Entra roles
Manage access to Azure resources	Manage access to Microsoft Entra resources
Supports custom roles	Supports custom roles
Scope can be specified at multiple levels (management group, subscription, resource group, resource)	<a href="#">Scope</a> can be specified at the tenant level (organization-wide), administrative unit, or on an individual object (for example, a specific application)
Role information can be accessed in Azure portal, Azure CLI, Azure PowerShell, Azure Resource Manager templates, REST API	Role information can be accessed in the Azure admin portal, Microsoft 365 admin center, Microsoft Graph, AzureAD PowerShell

- If you're a member of the Global Administrator role, However, by default, the Global Administrator doesn't have access to Azure resources.

- `#Account_Administrator` , `#Service_Administrator` , and `#Co-administrator` are the three classic subscription administrator roles in azure.
- can manage resources using the Azure portal.

Classic subscription administrator	Limit	Permissions	Notes
Account Administrator	1 per Azure account	<ul style="list-style-type: none"><li>- Can access the <a href="#">Azure portal</a> and manage billing</li><li>- Manage billing for all subscriptions in the account</li><li>- Create new subscriptions</li></ul>	Conceptually, the billing owner of the subscription.

Classic subscription administrator	Limit	Permissions	Notes
		<ul style="list-style-type: none"> <li>- Cancel subscriptions</li> <li>- Change the billing for a subscription</li> <li>- Change the Service Administrator</li> <li>- Can't cancel subscriptions unless they have the Service Administrator or subscription Owner role</li> </ul>	
Service Administrator	1 per Azure subscription	<ul style="list-style-type: none"> <li>- Manage services in the <a href="#">Azure portal</a></li> <li>- Cancel the subscription</li> <li>- Assign users to the Co-Administrator role</li> </ul>	<p>By default, for a new subscription, the Account Administrator is also the Service Administrator. The Service Administrator has the equivalent access of a user who is assigned the Owner role at the subscription scope.</p> <p>The Service Administrator has full access to the Azure portal.</p>
Co-Administrator	200 per subscription	<ul style="list-style-type: none"> <li>- Same access privileges as the Service Administrator, but can't change the association of subscriptions to Microsoft Entra directories</li> <li>- Assign users to the Co-Administrator role, but can't change the Service Administrator</li> </ul>	<p>The Co-Administrator has the equivalent access of a user who is assigned the Owner role at the subscription scope.</p>
