2- Pricing Calculator & TCO

- designed to give you an estimated cost for provisioning resources in Azure.

- You can get estimate for individual resources

- Focus is on cost of provisioned resources in Azure.

- **!** The Pricing calculator is for information purposes only. The prices are only an estimate. Nothing is provisioned when you add resources to the pricing calculator, and you won't be charged for any services you select.

TCO calculator

- Designed to help you compare the costs for running an on-premises infrastructure compared to an Azure Cloud infrastructure.

- you enter your current infrastructure configuration, including servers, databases, storage, and outbound network traffic. The TCO calculator then compares the anticipated costs for your current environment with an Azure environment supporting the same infrastructure requirements.
